

WILDECK, INC. NAMED AME VERTICAL'S "VENDOR OF THE YEAR"

For Immediate Release
February 14, 2008
Troy, Michigan

AME Vertical, a storage solutions provider to businesses throughout the United States, announced today that Wildeck of Waukesha, WI has been named "Vendor of the Year" for 2007.

In presenting the award, AME Vertical President, David Easterbrook cited Wildeck's commitment to Service, Reliability and Quality. "AME Vertical is a customer driven company that was founded on the principal of providing the customer exactly what they needed while exceeding their expectations with quality and service," said Easterbrook. "Wildeck reflects that very same commitment."

AME Vertical's qualifications for Vendor of the Year included consistently providing high value and high quality product, an ability to respond to change, a growth oriented attitude, and one of the most important factors; request for quote turnaround.

"In addition to exceeding the criteria required for the award, we found Wildeck's Regional Sales Managers to be outstanding! With their quick quote turnaround and knowledge of product they helped us achieve another record year in sales," added Easterbrook.

Since 1980, Wildeck, Inc. has been a premier manufacturer of space enhancement, material handling, safety and environmental products. Wildeck is the largest manufacturer of both mezzanines and vertical reciprocating conveyors (VRC's). Their success and growth over the years is attributed to their commitment to innovation, technology and customer service.

As a full-service provider of storage solutions, AME Vertical assists in the design, selection and implementation of storage equipment layouts, and provides recommendations for optimizing the use of existing real estate. All too often, companies spend valuable resources on warehouse rentals or building expansions when they already own valuable, utilizable space: the space above their heads! AME Vertical offers cost-effective alternatives to storage rental and costly construction by helping customers optimize their current floor plan.

AME Vertical supplies storage solutions for customers in many industries, including automotive, federal government, retail, manufacturing, distribution, and engineering services. Their current client list includes Fortune 500 companies such as General Motors, Ford Motor Company, General Electric, Johnson Controls, and Penske Auto Group.
